Re: Incoming Grade 7 Summer Math Work

Dear Parent or Guardian:

Your child will be required to complete online mathematics work over the summer. This will help to maintain their skills and prepare for next year's math class. ***The access instructions and additional information will be available on the RHAM Middle School website near the end of the school year:***

<https://rms.rhamschools.org/> – Under the “Students” tab, see the link for Summer Math Homework for incoming 7th graders. [This information will be available prior to the last day of school.]

This work must be completed by the first day of school in the fall. It is recommended that the problem sets be worked on periodically throughout the summer. Please note that as they are working, **students should also complete the attached Summer Math Work Reflection sheet(s)** to turn in to their new teacher when school begins. This document can also be found on the school website.

If you do not have access to a computer at home, the RHAM Middle School Media Center will be open periodically during the summer. You may also wish to have your child use the computers at the town libraries during their operating hours.

If you have any questions, you may contact me at gregory.lachance@rhamschools.org. You may also call the Guidance Office at (860) 228-9423 x4704. Thank you.

Sincerely,

Greg LaChance
Math Department Coordinator
